**Attra awarded PCI DSS Certification**

Attra, the leading solutions provider to the banking, finance and payments industry, today announced that it has been awarded Payment Card Industry Data Security Standard (PCI DSS) certification for a specific client process.

The PCI DSS compliance reinstates our continuous commitment to the highest levels of data security. Attra has once again demonstrated that we value our customers- confidential information and strive hard to keep our systems and processes up-to-date and secure.

The security assessment was conducted by SISA Information Security Pvt. Ltd, a leading Qualified Security Assessor (QSA).

PCI Compliance is the Payment Card Industry Data Security Standard, a world-wide benchmark mandated by the card schemes for the protection of cardholder identity and transaction information. The PCI DSS was created by major credit card companies to safeguard customer information. Visa, MasterCard, American Express and other credit card associations mandate that merchants and service providers meet and maintain stringent security standards when they process and transmit cardholder data. Today, PCI Compliance is the gold standard by which companies- data security is measured.
