# **OCTAVE<sup>®</sup> (SEI - CMU) Workshop**

## **By SEI Authorised Trainer**

*OCTAVE<sup>®</sup> is a Risk assessment methodology developed by Software Engineering Institute, Carnegie Mellon University.*

*- OCTAVE is a structured risk assessment methodology for an organization's Information Security Strategy that can be leveraged for regulation/standard compliance such as ISO 27001, HIPAA, GLBA, FISMA, PCI-DSS, etc.*

*- Compare OCTAVE with ISO 27005 and NIST SP 800-30 and learn how it can add value to your existing methodology or compliance.*

*- Improve your current compliance to ISO 27001 by benchmarking with world's renowned methodology.*

**23 & 24 February, 2012**

**9:30 A.M TO 6:00 P.M**

**BANGALORE**
